

JOB POSTING

LANDSCAPE DESIGNER

Bowers + Kubota Consulting is full-service construction and project management firm with A-E design services. We work with leading organizations, often in highly structured and regulated operations, to tackle their most difficult and unique management challenges.

Listed as a National and Local Best Place to Work, Bowers + Kubota Consulting is seeking a passionate and motivated **Landscape Designer** to join our team.

JOB QUALIFICATIONS:

- Degree in Landscape Architecture, or related field.
- 1 – 3 years professional experience.
- Desire to develop into a meaningful role in a collaborative team environment.
- Ability and desire to explore conceptual ideas from schematic design through construction documentation.
- Technical interest and experience researching and coordinating design elements into construction details
- Ability to produce presentation material and documentation sets within a team or independently.
- Strong verbal and visual communication skills including a working aptitude of AutoCAD, Adobe Creative Suite (Specifically InDesign, Photoshop, Illustrator), Sketch-Up, Lumion, Microsoft Excel and Word.
- Exceptional hand sketching/drawing skills to clearly convey design intent is a plus.
- Understanding of plant zones, communities/composition, characteristics (i.e., form, size, texture, color), basic growing requirements.
- Able to multi-task, prioritize, and meet deadlines.
- Positive service-oriented attitude toward the firm, our employees, and the clients.

ESSENTIAL JOB FUNCTIONS:

- Plan and design development of land areas for projects, such as recreational facilities and other commercial, industrial, and residential sites.
- Prepare separate detailed site plans, grading and drainage plans, lighting plans, paving plans, irrigation plans, planting plans, landscape cost analysis, and construction detail of landscape structures.
- Compile and analyze data on conditions such as location, drainage, and location of structures for environmental reports and landscaping plans.
- Prepare detailed scale drawings and tracings from rough sketches or other data provided.
- Prepare colored drawings and builds models of proposed landscape construction for presentation to client.
- Ensure project compliance with applicable codes.
- Assist senior staff with design and drafting of landscape projects.
- Perform other duties as assigned.
